

PROJECT

2 x 178.000m³ LNG Tanker

LOCATION

Japan

CUSTOMER

Imabari Shipbuilding Co. Ltd.

DESIGN PRESSURE

PN 10

DIAMETER RANGE [mm]

DN 450 and DN 600

PRODUCT

NAVICON Fibermarine Highline
GRVE conductive

APPLICATION

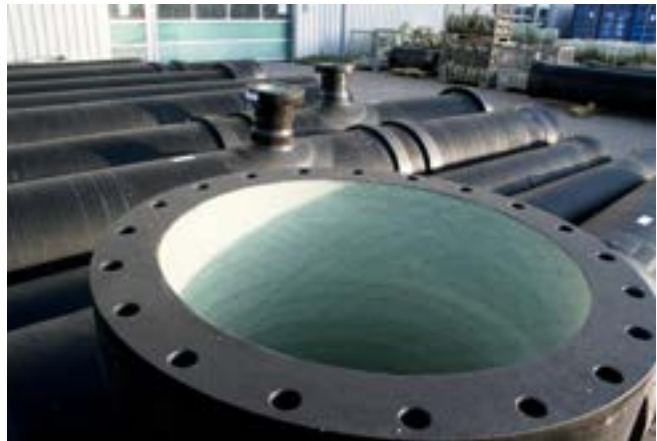

Ballast Water Line

CONSTRUCTION DATE

2015

END USER

Elcano S. A., Spain

DESCRIPTION

Delivery of 720 m NAVICON collapse resistant Fiberdur pipe DN 600/DN 450, Flanges and T-pieces for two 178.000 m³ LNG Tankers. The pipes are conductive with a rubber seal lock joint connection. Easy installation without any bonding or lamination.

SCOPE OF SUPPLY

- Ballast water pipes
DN 450 and DN 600
- Engineering
- Necessary material for connection

ADVANTAGE

- No maintenance
- Light weight
- Easy installation
- Long lifetime
